## **From the Watchman's Corner**

### **Fall Intelligence Report - 2002**

In January, I received a copy of the January issue of "THE AMERICAN SENTINEL", published by the LANTERN PRESS, 10660 South Tyron Street, Suite 16, Charlotte, NC 28273.

The information it contained, was so unique and important to an understanding of National and International problems, that I wrote its editor, Mr. Lee Bellinger, for permission to quote in detail from this report, using some Editorial License that would not change the truth of it's contents. (To avoid any accusation of plagiarism, I have his permission in writing.)

With our nation in the midst of turmoil and chaos caused by the September 11<sup>th</sup> terrorist attacks, on New York City and the Pentagon, it is good to see a man with the courage, to tell the truth, even though it will be unpopular with many Americans at this time. With the nation in the grip of a patriotic fervor, not seen since December 7, 1941, it has become, unpopular, and almost considered treason, to tell the truth about, or criticize government, or the church, even when they deserve exposure and criticism. We have seen the truth of 2 Timothy 4:30, 31, come true: "For the time will come when they (the people), will not endure sound doctrine (the truth), but after their own lusts (longing for material things which comes before their love for God), shall they heap (gather) to themselves teachers (political and religious leaders), having itching ears; and they shall turn away their ears from the truth, and shall be turned unto fables (Falsehood)."

I pray this information will prove to be a blessing to you who search for the truth, and desire only God's best for our people and country.

Before Congress emasculates any more of our Civil liberties, in the name of 'fighting terrorism', right thinking Americans, especially White Christians, should press House Republicans into holding unbiased hearings which would shed light on six major liberal policies which precipitated the September 11<sup>th</sup> attacks. It is imperative that the American people be told the truth; they have every right to know, in order to forestall further attacks.

Warning signs are everywhere, and even the liberal media, which has done a cover up job on what has happened so far, is now becoming concerned. They know they will ultimately be held accountable for their silence, as it will be most unpleasant when the truth is finally known.

The American public is for the most part long suffering and forgiving of government excesses, and stupidity but a time comes when they can no longer be fooled and where people feel threatened, then there will be "hell to pay!"

As I write this, I am looking at a copy of the Arkansas Democrat Gazette, my hometown newspaper. On the front

page is this rather frightening headline: "TERROR FORECAST GROWS DARKER!" The article, which follows, says, "The United States could face terrorist surprises vastly more deadly than the September 11`h attacks, which killed over 3,000 Americans, Defense Secretary Donald Rumsfeld said Thursday."

On a day in which other administration officials said the nation will likely remain on high alert for some time, Rumsfeld said terrorists who managed to get unconventional weapons, and the ability to deliver them great distances with ballistic missiles could kill hundreds of thousands of Americans.

Amid evidence that the al-Qaida terrorists network has been studying U.S. nuclear plants, dams, and water supplies, as potential targets, Rumsfeld said the magnitude of danger would grow if terrorists were allowed to link up with rogue nations willing to supply them with nuclear weapons. "These attacks could become vastly more deadly than those we suffer", he said, in a speech at the National Defense University graduate school for senior military officers and government officials.

In this message I will attempt to show you, with the help of the "AMERICAN SENTINEL", what our government is doing to protect you, or what it may have done to precipitate these attacks. (The old saying, "Forewarned is forearmed", would be most appropriate here.)

This report will clearly demonstrate how the United States has become vulnerable to terrorists attacks from Third World nations who may hate us for a variety of reasons.

These dangers have been greatly exaggerated by reckless, amoral policies current among liberal left-wing politicians.

An example of this is the current bent among liberal politicians in Congress, to accuse the armed militia, and Christian-Identity patriots of being terrorists and a danger to the "American Way of Life", when they have always been the backbone in protecting American interests.

They are using a long-term policy, which has proved successful. That is when you are accused of wrongdoing; attack your opponent through name-calling, and by accusing him of the things, which you are guilty. Then while he attempts to defend himself, you are free to carry on your dirty work.

To the liberals in Congress, and the brainwashed Christians in the Fundamentalists and Judeo-Christian churches, they represent a danger, for they speak the truth, which many of these organizations have been suppressing.

It is difficult for these people to understand that in America, there are still large numbers of professing Christians who cannot be intimidated, who cannot be bought, and who are armed and ready to defend their "Bill of Rights". The very idea frightens them, for they cannot conceive of such dedication to God and country. These patriots must be removed before the Zionist plan for One World Government can be successful.

Unfortunately liberal plans such as this are being swept under the liberal carpet, to keep Americans from knowing the truth. In many cases it has become a conspiracy between liberal politics and liberal church world, which are working towards the same goal of universal One World Government, where all people are pressed into the same political and religious mold.

The Bush Administration, in order to preserve what they call "national unity" has swept many important facts under the political carpet. We will attempt to unravel some of them, and in so doing may have to say as the Apostle Paul did to the Galatians' Christians, "Am I therefore become your enemy, because I tell you the truth?" (Galatians 4:16)

National unity today has become political shorthand for not holding elected. officials accountable for the oath of office they took, to protect the Constitution and this Republic against all enemies both foreign and domestic. Instead many in both the church and politics have become traitors and got fat off their treason. We seldom hear anything about this for treason prospers! What's the reason? For when treason prospers few dare call it treason!

Those who give aid and comfort to our enemies, either foreign or domestic, for any reason, are traitors according

to the U.S. Constitution, Article III, Section 3.

The people in our government and churches, who follow these illegal and immoral tactics, must be held accountable if we are to remain free.

This Report will show that if any of the following six liberal policies had been stopped, the September 11<sup>th</sup> attacks might never have taken place. That's why it is imperative for us to press our government for unbiased Congressional investigation of what took place prior to September 11. (It must not be a government cover-up as was the case in the Waco and Murrah Building investigations.)

Based on extended research by papers such as the AMERICAN SENTINEL; the JUBILEE; the AMERICAN FREE PRESS and CRIMINAL POLITICS, Congress can best prepare for these hearings by exposing the liberal policies we will discuss in this Report, which not only possibly, but probably contributing to it.

#### Cause 1

Law enforcement authorities in our government were powerless to take action against hostile foreign visitors within our borders, due to explicit liberal pressure in Congress and the organized church world. These damaging policies were formulated for the most part within the leadership of the Democrat Party, which effectively extended "Bill of Rights" privileges to alien immigrants who were in America. (In the Constitution, these rights were only intended for American citizens.)

#### Cause 1

Law enforcement officials knew something big was in the wind, as far as terrorism was concerned but were powerless to prevent the September 11<sup>th</sup> assault. They thus specifically allowed flight instructions to be given to illegal foreigners in Minnesota and Ohio. Flight instructors in both areas tipped off the FBI that Zacarius Moussarios, an illegal immigrant, had paid \$8,000 in cash, to learn how to steer, but not take off or land a Boeing Super liner. This French Algerian, with a record of terrorist affiliations in North Africa, had inquired into how to make low-level flying approaches over New York City.

The Justice Departments office of Intelligence Policy and Review (OWPR) had rejected a pre-September request by the FBI to search Moussarios' house and computer (due to institutional restrictions, which were hatched during the Clinton Administration).

In fact they were begun under President Carter, and expanded under his Administration. It was only after thousands of Americans had died in the 9-11 attacks that the FBI was allowed to open the Moussarios research. The information they discovered was enough in detail regarding the attacks, they could have very possibly prevented them.

#### Cause 2

Anti-defense Democrats blinded other Congressional Law makers, as to the moves of hostile foreigners in the United States. (It was similar in many respects to my attempt to warn our State Department of the presence of many Russian and North Korean troops within fifty miles of our border with Mexico, with heavy equipment in 1976. Although I presented State with photos of this equipment taken in the northeast area of Mexico, near the Lake Cuidad Victoria, and less than a hundred miles south of Brownsville, Texas. I was given stern lecture about having been in an off limits area when the pictures were taken, and was threatened if I spoke about what I had seen in public. It became apparent that the liberals in the State Department were more interested in covering up this truth, than in keeping the American public informed. When I spoke about this during a radio talk show in San Antonio, Texas, I came under harassment by the FBI, the CIA, and their bullyboys in the IRS. Their argument was that I was endangering National Security by informing Americans of danger at their doorstep.)

Our government was caught flatfooted on September 11<sup>th</sup>, in large part because liberal Democratic pressure in Congress had dismantled the Congressional Internal Security Committee during the 1970's.

In the wake of a Congressional witch hunt, in Congress against this vital Security Committee headed by such Democrat liberals as former Idaho Senator Frank Church and former Representative Otis Pike of New York the Democrat controlled Congress, abolished the House Committee on Un-American Activities and it's successor the Internal Security panel. They also terminated the Internal Security Division of the Justice Department, all vital to National Security.

#### Cause 3

Anti-defense Democrats during this period emasculated the CIA's ability to infiltrate and disrupt the activities of hostile foreigners, operating against American interests both at home and abroad.

Beginning in the 1970's with the Carter Administration, and escalating under Clinton's control, they and their liberal allies forbade the CIA from collecting personal information, on hostiles, in favor of using high tech spy satellites. The result was that our intelligence agencies could detect large troop movements in hostile countries, but were blinded when it came to analyzing their intentions. It was almost impossible for them to determine the plans and activities of terrorist cell groups, some who were operating within our borders.

#### Cause 4

A Motor Voter Law, allowed hostile illegals to blend easily and secretly with honest citizens. The Southeastern Foundation has established the fact that prior to September 11', hostile illegals had obtained Virginia driver's licenses, which allowed them to transact businesses, open bank accounts and enter flight schools. How did this happen? These illegals obtained these licenses by taking advantage of the Democrat backed "Motor Voter Act" of 1993, which made it easy for illegals to vote and in many instances obtain driver's licenses. It does not take an intellectual brain to see how this would make it much easier for terrorists to plan their attacks.

#### Cause 5

Environmental extremists blocked the World Trade Center, from using fire-resistant support structures. (This came during the hysteria-backed campaign by environmentalists during the 1965-1972 period over the use of fire-resistant asbestos.) All floors above the 64<sup>th</sup> street level had to be constructed without the use of asbestos.

The New York City Council (Democratic controlled) voted in favor of this move, although they did not have evidence of a single death caused by the use of asbestos in construction. At that time, experts in skyscraper construction safety warned the Council: "If fire breaks out above the 64th floor, the building will collapse."

Building experts agree that it was the 2000 degrees heat from the burning aviation fuel that melted the non-fire resistant external building supports causing a catastrophe that had warned about thirty years earlier.

#### Cause 6

The State Department, under Democrat control jammed open the floodgates for foreign immigration from terrorist backed regions in the Middle East.

A detailed, non-partisan Congressional hearing is desperately needed to correct what has become a tremendous national liability. This is the unfettered access to America's heartland made possible by unlimited, and often unsupervised enemy immigration.

Even while Congress is passing new laws that restrict the Civil liberties of American citizens, they are often allowing free access to our enemies. An estimate has been made that about 26,800 immigrants entered the U.S. during October and November 2001. Most of them coming from potentially hostile countries, such as Morocco, Libya, Syria, Iraq and Iran.

We must have immediate help from Congress to obtain these hearings.

Democrats on Capitol Hill are already demanding that hearings such as this be nonpartisan, which is another way of saying, "We don't want a Congressional investigation of the left-wing policies which have made America vulnerable to enemy attacks."

As you can see from, these six major causes, the best way to terminate future terrorists attacks is not in the destruction of Civil Liberties for our citizens, but in forcing official Washington to admit and correct the dangers they have allowed by following liberal policies. The people we elect to office must be held accountable to the American people for their oath of office, to defend this country against all enemies both foreign and

domestic. They must understand this when they accept their office, whatever it may be, and there can be no excuses accepted for not doing this!

#### Actions to take,

Tell the House Speaker that you want hearings to expose the policies that led to the September 11 attacks. Insist on it! You can contact him by telephone or by mail. Be courteous, but be firm. Our elected officials must realize that we mean business and that we are past the point of where excuses will be accepted. It will only take a few

minutes of your time and a 37-cent stamp.

Second Action to take:

The next time you receive a funding appeal for President Bush or the Republican Party, write back demanding that the GOP la- %N-makers hold a hearing to expose the liberal policies which made the September 11~' attack possible.

Much has been said in the liberal, controlled media, about the possibility of a devastating nuclear or biological attack in the near future. Although this idea may be held up to ridicule by the liberal factions in politics and the church, it is essential that the question must be honestly asked and answered: "Is this likely or even possible?"

The United Nations estimates there have been approximately 153 thefts of nuclear materials and 183 disappearances of radioactive matter necessary to build a nuclear device. There has also been the disappearance of large numbers of so-called suitcase bombs, from the Russian nuclear arsenal in the last seventeen years. (These are small dirty bombs, that can be easily carried and while they would not destroy an entire city, they would kill thousands of people, and make the area unlivable for years to come.)

The dirty bombs (suitcase type), is made up of large quantities of dynamite mixed with fissionable materials, which would contaminate a large area. Casualties would depend on crowd density, but would undoubtedly be used where the population is high, for maximum effect.

Imagine if you will, the effect this would have on our nation, if one were to be detonated at a large sporting event attended by over 100,000 people. (Some events, like the Kentucky Derby, and the Indianapolis 500, draw crowds of over a quarter of a million people.) The very thought makes our blood run cold, and many will dismiss the possibility as fright tactics. Yet events leading up to September 11h's attack, make this a distinct possibility that we can no longer refuse to accept, for our survival is at stake.

Many experts believe there is a 50/50 chance of atomic bombs being detonated on America soil in the near future, or possibly even worse, a much larger chemical or biological attack that would kill millions. Today, as never before in American history we are in a period that "tries men's souls," and we will not get out of it by wishful thinking, or by expecting our government to defend us.

Two Arrests made at a Nuclear reactor site in the Netherlands

News magazines reports that hush-hush arrests were made in late September 2001 in the Netherlands. According to the Dutch News Agency, the still two unidentified men, who were carrying false identity documents, were arrested at the European Commission's Nuclear Research Center. An American researcher, who specializes in research on dirty bombs, sees a real threat here. Professor James Ballard of Grand Valley State University in Michigan wrote a report in 1998, detailing this long-term threat. Many experts are waiting for the other shoe to drop! Particularly as they see the large number of unsupervised aliens now on American soil.

Do you live Near a Nuclear Plant?

If you live within ten miles of a chemical-industrial facility, there is evidence that other attacks similar to the September 11th attack may be planned for chemical plants near large urban areas. The Washington Post confirmed on December 16, 2001, that known terrorist leader, Mohammad Atti, had detailed plans for attacking chemical facilities in Tennessee that contain over 250 tons of Sulphur Dioxide.

U.S. forces in Afghanistan have found other detailed plans for such an attack on American soil.

While President Bush and our military leaders have confirmed that the war in Afghanistan is going as planned - Virginia we ain 't out of the woods yet!

It is suggested that if you live within ten miles of a large chemical plant, you should prepare yourself for an emergency just to be on the safe side. Hopefully you will not need it, but it's far better to be safe than sorry. (I would suggest at least a weeks, supply of food, water and medicines be kept on hand.)

U S. Appeasement of Pan Am flight 103 murders emboldened terrorists!

One thing we should, have learned from world history is that there is no way to compromise with evil, and evil men come out in the driver's seat. This has been proven too often to be a subject of argument!

Terrorists no doubt felt relatively secure in attacking the United States because of the Clinton's Administration's shameful handling of mass murder, when terrorists blew up a Lockheed Jumbo Jetliner out of the skies over Lockerbie, Scotland. An investigation determined that Libya, Iran and then Communist Czechoslovakia were involved.

In a 2000 Reader's Digest story was documented how relatives of the 259 victims were forced to watch as the Clinton White House rewarded Libya by reducing sanctions against them in exchange for our governments releasing two top operatives who were scheduled for trial in a Scottish Court. There was never any State Department or military response to this mass murder. Almost certainly, this sleazy handling of this case emboldened Arab terrorists. Chalk up another Clinton Administration appeasement of evil.

Black America has been Radicalized!

The radicalization of Black America has always been an agenda of the liberals, especially those associated with International Zionism. It is even more important now, as we find America being seduced into another war, this one in the Middle East, which could easily escalate into World War III. We are not prepared for such a war. Our military ground forces have not been in a real combat situation since Vietnam, where we were defeated, not by our enemies, but by liberal politicians who would not let us win.

Our Air Force while superbly trained and armed has not been in a real combat situation, since World War II, while our Navy has not been tested under real combat conditions. Now these same hate American principles, liberals are engaged in a further effort to defeat us from within, by radicalizing our Black population. Indications are that if the liberals have their way, Blacks will be used as cannon fodder, to bring us into the Zionist New World Order, then when the damage has been done, they are to be dropped as useless trash.

In late November, leftists convened a disturbing conference in Atlanta, Georgia, called "The State of Black World Conference". This hate fest was directed against White American concepts of justice. One participant, Dorothy Lewis, who is co-chairperson of the "National Coalition of Blacks for Reparations in America", said, "September 11th was an opportunity to see the possibilities of what can happen to the people who are under the influence of terror, as the Blacks have been. Slavery was terrorism (so true, but she said nothing about it having begun and carried off by Jewish slavers, who purchased Black slaves from Black African chieftains, with rum distilled in Jewish owned distilleries in abolitionist New England; how they were brought to North America on Jewish owned slave ships, under such deplorable conditions that as many as 10 million Blacks may have died in route, then were sold by Jewish auctioneers, in Jewish owned slave markets). Black liberals who are part of the Zionist conspiracy to destroy White Christian America never mention these truths. Ms. Lewis went on to say, "We can use September 11th to see terrorism."

This attitude should not be unexpected, for as early as 1921, one of the leading Communists in Britain, Israel Cohen, wrote a book titled, "A RADICAL PROGRAM FOR THE TWENTIETH CENTURY". The following is an excerpt from this book, as taken from the U.S. Congressional Record, of 1957, page 8559:

"We must realize that our Party's most powerful weapon is racial tension. By pouring into the consciousness of the dark races that for centuries they have been oppressed by Whites, we can mold them to the programs of the Communist Party.

"In America we will aim for a subtle victory. While influencing the Negroes against the Whites, we will endeavor to instill in the Whites a guilt complex, for their exploitation of the Negroes. (They have been most successful in doing this, especially in the JudeoChristian churches of America who have gone overboard with this false teaching.)

"We will aid the Negroes to rise to prominence in every walk of life, in the professions, in the world of sports and entertainment. With this prestige, Negroes will be able to intermarry with Whites (a few years ago this was forbidden by law), and begin a process that will deliver America into our control." (UNQ)

Today, it is quite evident from remarks made by liberal Black extremists that a racial war is in the making, where Blacks will be used as cannon fodder, to further the aims of the Zionist New World Order and destroy White Christian civilization. Many conservative Black leaders recognize this danger, and know that while many Whites would die, it would result in the elimination of Black influence in America. They too have been fighting a battle against overwhelming odds in an effort to protect the progress their people have made in America. They know the

Zionists cannot be trusted as either friends or allies.

#### Is Self-Reliance on the Rise?

This has been a major item for liberals when it comes to Blacks and other non-White races. So they push for pride in the colored races, while calling it racism in Whites. They promote special days in which coloreds are honored; they push for the teaching of Black history in our schools, while deploring efforts by Whites to do the same for their people. They have gone so far in their radicalization, as to teach that only whites can be racist. It is interesting to note, that this liberal propaganda is usually taught most vociferously by those who have benefited most under a White Christian way of life.

There is no Black led Republic in Africa, where citizens have the freedom American Blacks enjoy. All of them are far worse under Black control, then they were under the sometimes-harsh colonial control of Whites.

Yet such is the liberal media control over all of us who are thinking Americans, that they can turn a lie into truth, and make Black come out White. (No pun intended, see Isaiah 5:20)

Self-reliance was once a staple with the American people as was righteous indignation (the ability to identify right from wrong, and the guts to do something about it). Now under the New World religion of Secular Humanism, our youth are being taught there is no such thing as right and wrong, only shades of gray, which changes according to your environment. This has become known as "Situation Ethics".

In the wake of 9-11, there is some evidence that we may be seeing the national pendulum swinging in this most important direction. As the truth is beginning to sink into the consciousness of millions of previously media brainwashed citizens, that while our government, both Republican and Democrat, has been spending countless billions of tax dollars on intelligence, security and military force, something is drastically wrong, when our nation can be brought to chaos and fear by some Stone Age Third World nation, smaller than many of our states. Could it be that this chaos has been deliberately created from within by the liberal traitors in our own government? (Those men who are dedicated to bringing us within the Zionist orbit of their New World Order?) Could it be that our search for terrorists should begin with a good housecleaning in Washington DC, and in many of our churches, who are supporting God's and our enemy?

Since 9-11, the FBI reports that the sale of handguns has soared by 21%, as many of our people are beginning to realize that our government cannot, or will not defend us from our enemies.

In our Nation's Capital, where law bans handguns, the sale of shotguns and rifles has soared by 50% -70%, and in liberal dominated California, the sale of handguns is up 41%. Many Americans are beginning to reason that they must take care of themselves, as neither the police nor the military are able to do it under our present corrupt system. For you Christians, this responsibility is clearly shown by the Apostle Paul in 1 Timothy 5:8, when he said, "any man who will not provide for his own family (and that surely includes defending them if necessary), has denied the faith and is worse than an infidel." I have had Christian ministers tell me that they would not use force, to stop an assailant from raping their wife and daughter. To me, and according to Scriptures, this man has no right to be called a Christian, much less a Christian leader.

Many of our people are no longer willing to sit on the fence and wait for government to take care of them. They are beginning to take action! I believe one of these actions should be to let our Congressional leaders know, that we will hold them accountable for their national stewardship. (I am doing this by answering Republican pleas for support by telling them: "Prove your sincerity by your actions, then ask for our support!" You can receive a FREE copy of these letters by sending me a self-addressed, stamped envelope.)

#### Russian Government Cooperating with U. S. Liberals for Total Gun Control!

Columnist Toby Westerman points to a recent conference held in Moscow, by the Russian government, which was attended by hardcore American gun-grabbers such as Representative Henry Waxman, (D-CA), Representative Carolyn McCarthy, (D-NY), and Nan Aron of the leftist Alliance for Justice. This event was broadcast by the official Russian "Voice of Russian World Services", and took special aim at U.S. gun makers, who the Communist/Zionists say are exploiting the 9-11 tragedy to make a huge profit. They refuse to admit that this attitude is caused by liberal reactions, and of patriotic

Americans who refuse to give up their Second Amendment rights to a heathen International force.

Moscow's connection to global gun-grabbing activists is not new. In July, the "UN CONFERENCE ON SMALL ARMS AND LIGHT WEAPONS", exerted considerable pressure, as Russia issued a special assault against American gun manufacturers. This is an important issue that American Christians in particular must keep in mind; American people must be completely disarmed, before the Zionist One World Order can take control. Christian (?) liberals, who cooperate in this effort, are harming the security of this sovereign nation and are therefore our enemies.

According to Westerman, many of the nations attending this conference already have restrictions against public ownership of small arms. Yet in many Third World countries, like the Black Republics of Africa, government leaders regularly murder and intimidate their unarmed, defenseless citizens.

I personally believe we must return to the Biblical principle that forbids White Israelite people from engaging in "entangled foreign alliances", with heathen nations. Our founding fathers such as George Washington and Benjamin Franklin warned of its dangers, but political expediency won out over common sense and we have had nothing but trouble on the foreign front ever since. None of our wars since the Spanish American have been fought for the defense and good of America, and only alien, antichrist forces have benefited from them. Yet under liberal leadership we never seem to learn that: "He who will not learn from the mistakes of history, is bound to repeat them!" So we go blundering along, decade after decade, getting deeper and deeper into the foreign quagmire that will eventually destroy our freedom.

Our world problems began when man thought he knew more about how to run things than God himself. Over a hundred years ago a German Jewish philosopher named Ludwig Feuerbach stated: "Man will only be truly free, when he realizes there is no god of man, but man himself." This idea took root in the diseased mind of a young Jewish radical named Karl Mordecai Marx, and became the foundation of modern Communism, and his Communist Manifesto.

We have refused to follow God's warning in 2 Chronicles 19:2 - "Shouldest thou help the ungodly (they are the antichrists according to 1 John 2:22)? And love them that hate the Lord (they call Him an illegitimate bastard), therefore is wrath upon thee from before the Lord." No one has been guiltier of this sin than the so-called Christian church world, which has attempted to turn God's enemies into His Chosen.

We pay bitterly when we disobey God and His Word has stated in many places: "Come ye out from among them (the heathen), and be ye separate, saith the Lord." Yet we have ignored this and have welcomed them with open arms, even though God's Word said they would become "thorns in our sides, and pricks in our eyes", if we mingled with them, and allowed them to lead us astray. They did this in World War I and II, in Korea, and Vietnam, and in every little brush fire war since. Now once again we are allowing

them to lead us blindly into the Zionists quicksand of the Middle East that may very well lead us into World War III and destruction.

Other Important News not being Disseminated by the media!

The FBI knew - The CIA knew - M-15 knew- and MOSSAD knew that 9-11 was eminent. Therefore it is reasonable to believe that both Mr. Sharon and George Bush knew too.

The dominance of World Zionism over our American government must be broken, if we are to exist as a free and sovereign people. Their open boasts show they intend to destroy us!

It is becoming more and more evident that the 9-11 terrorist attacks were designed to force Presidential action that would commit our armed forces to the big war brewing in the Middle East. In spite of the glowing reports you read in the media, we are not prepared to fight and win such a war. Unfortunately our military are now being trained that their loyalties are not to the U.S. but to the United Nations. In fact many of our ground forces are being trained as policeman, rather than soldiers. Their goal is the control of Americans, not the defense of this country from "all enemies; foreign and domestic. "

In 1991, the CIA with Saddam Hussein as their "stooge" organized the fake attack against Kuwait. It had nothing to do with protecting America or Americans but was designed solely for the benefit of International Zionism and

their political interests.

Now ten years later, Bush (the son), is apparently repeating the performance of his father by committing our military into the Middle East, under the pretense that we are fighting "terrorism. " (This information comes from "CREVIINAL POLITICS", Lawrence Patterson, Editor, and P.O. BOX 37812, CINCINNATI, OH 45222.)

The truth about the Middle East fiasco is surfacing day by day, as our government spends billions of dollars, and valuable military equipment, that may be needed later for our protection. The mess we are now engaged in, in the Middle East, will not be won by military or political means, or by throwing huge sums of money at it as we are doing now.

I believe that Mr. Bush would have fought to keep this incident from happening, but he was under tremendous pressure from the Zionist controlled media, and the Zionist lobby in Washington, DC. The media, and the liberal One World traitors in Congress would, have blocked any actions by Mr. Bush to forestall this action.

Now reliable information has surfaced that there may be as many as 100,000 trained terrorists (trained in terrorist training centers in enemy nations), with tens of thousands of them, already within the United States, and completely unsupervised by our StateDepartment. Surely the "barbarians are already inside our walls ", often backed by the church world.

This could have been avoided with adequate supervision from high officials in the Military and State Departments. This is why I say that our search for terrorists should begin with a good housecleaning in Washington, DC, and in many of our churches. There are many traitors among the liberals in America, who have been "giving aid and comfort to the enemy ".

Many proofs of government involvement in the tragedy of September 11" have been published in foreign newspapers but have never been touched by our controlled media.

"The Los Angeles Times" of September 20, 2001, admitted that the "FBI and CIA officials were advised in August that 200 terrorists were in this country, who were planning a major strike against us." Apparently little was done to stop this, and both the FBI and CIA should be held to account for their inaction, by the American people.

David Schippers, the Counsel for the Clinton Impeachment Investigation, learned of the impending attacks and warned the U.S. Justice Department weeks ahead of time. He even identified southern Manhattan as the site of the coming attacks and was completely ignored. All decent Americans of all colors, and especially those of us who know we are "born from above White Israelite sons of Abraham" should be foremost in our demand for a full investigation of this rotten mess.

It is only as we learn to obey God, and "Cry aloud, and spare not" when it comes to exposing evil (Isaiah 58:1), that we will once again be able to call ourselves Christian America, and expect God's blessings on our efforts.

#### Other Attacks?!

There had been previous attempts by terrorists to use an airliner as a missile against a tall building. In 1991, an Islamic terrorist group hijacked an Air France jetliner in Algiers. They demanded that the aircraft be loaded with 27 tons of fuel, more than three times more than needed to reach it destination in Paris.

French authorities determined from hostages who had been released prior to the flight, that this group planned to crash it into the Eiffel Tower. French troops stormed the plane before it could takeoff, killing the hijackers.

As you may remember the World Trade Center was also attacked by a truck bomb in it's basement in 1991, which should have given a clear warning to authorities that this Economic Center might be a future target.

According to "INSIGHT" Magazine, October 15, 2001, the CIA was taking no chances with 300 of its agents who were away from their stations in the Twin Towers on September 11. Could this have been a strange coincidence? Or was there prior

knowledge, which would mean criminal malfeasance of duty that must be brought to light and punished. (Shedding of man's blood, by other men, can only be cleansed by the shedding of the blood of the murderer.) This in spite of all the liberal voices rose against Capital Punishment. God has ordained this and man cannot set it aside without awful consequences. There are many Scripture references attesting to this truth.

Genesis 9:6, beginning, God ordained: "Whosoever sheddeth man's blood, by man shall his blood be shed. .." No man, or earthly power can cancel this law!

Numbers 35:30, 31 - "Whoso killeth any person (maliciously), the murderer shall be put to death by the mouth of witnesses; but one witness shall not testify against any person to cause him to die. Moreover, ye (Israel) shall take no satisfaction (bribe or ransom) for the life of a murderer: but he shall surely be put to death!"

In Psalm 106:35-41 we see where God's wrath rested on Israel because they allowed murderers to escape justice.

Then to cap it off, Jesus Christ, God's Son, our Savior, accused the Jewish people of being guilty of all the righteous blood shed on earth, from the time of Abel's murder, to His time. (Matthew 23:34,35) He knew that the Jews from the beginning were guilty of most wars, which had been fought on earth, not for their protection but to gain power and wealth. Today Jewry is frantically trying to have His words excised from the Bible, and are being helped by liberal churchmen in the Judeo-Christian churches.

Why have I spent so much time on "murder"? It is because God places a special curse on murder and the murderer. It is an abhorrent crime in the eyes of God, and allowed to go unpunished, brings more blood and suffering on the land.

The Jewish secret leader of the American CIA, A.B. King, is reported by the British newspaper "FINANCIAL TIMES", to be the Executive Director of the American CIA and the "WALL STREET JOURNAL" of September 24, 2001 and February 14, 2002, reported that a secret investigation was underway to determine why there was a sudden astronomical purchase of short option interests, by American and United Airlines before 9-11. This resulted in many millions of dollars in quick profits for these airline giants.

Strangely enough, this was the only report made by the "WALL STREET JOURNAL". Why the sudden silence?

How can there be a "secret Director of the CIA operation", Jewish or otherwise, who directs the operations, when the "man on the street" has never heard about it?

More and more evidence is surfacing, that the CIA and FBI and British Intelligence had prior knowledge of the planned murder of thousands of our citizens. This therefore becomes criminal knowledge ", and should be punished.

#### Breach of Censorship Rules!

At least twice, since September 11th, the Fox News Network has breached censorship rules, which prohibit dissemination of any information, however true, that are negative to the Israelis.

In two reports on December 12' and 14th of 2001, Brit Hume, featuring Carl Cameron admitted that 60 Israelis had been apprehended since the 9-11 attack. Cameron stated that these suspects had very possibly been gathering intelligence in the United States that would have warned of the 9-11 attacks, and deliberately withheld it from American sources.

Cameron went on to explain that there were tie-ins, but was not specific on what they were. Fox News stated: "There is enough evidence linking the Israeli to 9-11, but this information is classified (which means it will never be shared with the American people).

On December 14, 2001, Tony Snow and Carl Cameron of Fox News stated: "There is a long term U.S. Intelligence espionage investigation going on. Federal agents this year (2001) have arrested nearly 200 Israeli citizens suspect of belonging either to the Israeli military or their intelligence (MOSSAD)."

Cameron described an Israeli developed Intelligence operation that has apparently penetrated our government

wire-tapping system. This is tied in with the 1997 local/state/federal investigation in which Israeli nationals were involved with major drug operations in New York, Miami, Las Vegas, Canada, Israel and Egypt. This operation dealt in cocaine and ecstasy trafficking and sophisticated White-collar credit card and computer fraud.

It becomes quite evident that Israeli citizens, often with dual citizenship with the United States, are violating American laws with impunity, in many ways the long-suffering American public has never heard about. (With friends such as these, who needs any enemies?) Yet liberals in government and the church, still insist on giving them, "most favored status ", when in reality they are our enemies.

In addition to the original 60 Israelis arrested, 130 more have been arrested, many with illegal entry documents.

Fox News reported that U.S. intelligence gathering operations described these as an "organized intelligence gathering operation with orders to penetrate our government facilities."

When Cameron was asked what Bush officials were saying about this investigation, he replied, "Well there's real pandemonium in the FBI and DEA. Already a variety of administrative reviews are under way . . . They are all very careful because of the explosive political nature of the subject."

Based on past experience, I'd be willing to bet it will be another cover-up of Israeli actions against the best interests of the United States, as has been the case in the past. The controlled media cannot afford for the American people to learn the truth! It is one more proof of the moral and spiritual degeneracy of our once great nation.

It is a readily recognized fact, that our deployment of military forces to Afghanistan, has been to the distinct benefit of the Israeli and International Zionism, and is drawing us deeper and deeper into the quicksand of the planned Zionist New World Order. (In fact many of the liberals in Congress are working for this day.)

Yet in spite of the fact that we have once again allowed ourselves to be seduced into another international Jewish war, which could very well escalate into something we cannot handle, and which could very well end with the loss of millions of American lives, and the loss of our cherished freedom, there is every reason to believe that the American people will once again be called to `pull Jewish chestnuts from the fire. "

Have the political and military leaders gone mad? Do they believe we could take on enemies such as Red China? Surely we are not naive enough to believe we could take on Red China and other enemies, when they control the strategic Panama Canal!

There is now a decided shortage of potent weapons, which have been used up in our brush fire war in Afghanistan. Do we have a death wish, for our people to be defeated and come under Zionist World control? Now we are becoming involved worldwide, when we refuse to control our own borders, and the terrorists who are already within our borders. Every great nation in world history that has taken this route, has left it's bone's to bleach on the sands of history. Surely the old adage is still true: "He who refuses to learn from the mistakes of history, is bound to repeat them!"

Now, in the face of a biological terrorist threat, we are not even sure the vaccine we have available will work, and we are forced to obtain it from an Arab investor named Faud ElHivri, who was put into business by former Admiral William J. Crowe, a former Chairman of our Joint Chief's of Staff, who served as our Ambassador to Britain under President Clinton. (As you may remember, Crowe was the only high ranking military man who supported the election of "Slick Willie" to President in 1992.) Today he owns 22% of this Arab company, as the trail of treason grows and grows.

According to Lawrence Halloran of the Sub-committee on National Security of the House, ex-Admiral Crowe is a member of the secret societies program for world control.

If our government expects to use these poisonous vaccines on our people, while they are still in the experimental

stages, they are no better than the Nazis or Japanese during World War II, who used humans as guinea pigs. This is all part of government "humanist immorality" that has crept in as America has gradually abandoned God.

The general public is not aware that over 60,000 veterans from Desert Storm have died, with another 40,000 or more being crippled because of poisonous vaccines military members were forced to take.

Those who have sought to expose these criminal acts have been laughed to scorn, and some actually persecuted by those who desire to cover these criminal acts.

Only concerned citizens, can stop this!

Representative Ron Paul (R) is one of the few Congressional patriots who have the guts to attempt to stop these crimes and has complained bitterly that the House was forced into a late night vote on the recent Omnibus Terrorist Bill (known as the Patriot Act). House liberals recently voted this into law, although few members had been given the opportunity of reading it. So the treason continues!

This new bill is grossly inadequate in many of its sections relating to our Constitutional guarantees and the Bill of Rights. It has completely emasculated the 4th Amendment against unlawful search and seizure, in the name of fighting terrorism. It was Benjamin Franklin who said, "He who is willing to give up freedom for temporary safety, deserves neither." This is being proven today by liberal traitors who are only interested in power and control.

The Secret Zionist Societies, which now control America, have taken full advantage of the American public's naiveté (lack of knowledge and lack of understanding, and are being manipulated into One World Slavery). The words of Hosea 4:6 are more appropriate today than ever before, when God said, "My people are destroyed from a lack of knowledge." Not lack of education, but knowledge, which are not the same. Our country is overrun today with "educated idiots", many of them in politics and the church.

Zionist won the Sweepstakes for world control, in 1917, when the allies signed the Balfour Agreement, which promised Palestine to the Jews, as the price of getting America involved in the First World War on their side. From there the path to destruction of America's freedom, has been down hill all the way. Especially since we sold our economy to International Judaism in 1913 through the Federal Reserve Act. For when you control the economy of a country, you control that country and its people.

More and more we are seeing actions by our government to place all blame and pressure on the shoulders of patriotic Christian citizens, who have always been the backbone in defense of American freedom.

The Jewish Lobby, the most powerful in Washington DC, is pressuring Congress to pass the Zionist spawned Anti-Hate Bill S-625. According to researcher and publisher Theodore Pike, if this bill is passed it will amount to making criminals out of thousands

of sincere Christians. While giving protection to "gays, sex perverts, dope pushers and other undesirables", it will threaten the very existence of sincere Christians and may be laying the groundwork for Christ's prophesy in John 16:2, when He said, "They (referring to the Jews) shall put you out of the synagogues (meeting places); yea, the time cometh that whosoever killeth you will think he doeth God service." The media is already working in this direction.

The Zionist noose is tightening around the necks of Christians, and those who love freedom, as they seek to fulfill their threat to destroy White Christian civilization.

Just as a reminder there is an answer to our dilemma. I believe it will not come through military or political action, or by throwing vast sums of money at it as we are doing now. God's promise is still true in 2 Chronicles 7:14. It says nothing about a huge revival that will bring the heathen, the aliens, or unsaved church members to God. It is clear and specific. It says, "If my people (God's elect, See 1 Peter 2:9, who are not Jews), which are called by name (Christian), shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land." Only we who have given

ourselves wholly to Him, and obey Him, have the key for survival of Christendom.

It will not change things because you refuse to accept this truth! Will you rise to the challenge or perish with its rebels?
